Abbreviated Code of Conduct

(Or... How to make sure you (and everyone else) have an awesome Detcon!)

R-E-S-P-E-C-T - find out what it means to Detcon! (with apologies to Aretha Franklin...)

Respect others' rights to enjoy the convention. If someone asks you to leave them alone, your business with them is done.

Respect the hard working convention, hotel and building staffs. They are working very hard to make your convention the best it can be.

Please respect the properties and try and leave them better than you found them.

Please respect the general public, be mindful of the impression you are making to others and remember that you reflect the convention and fandom as a whole. Be a good ambassador.

Please respect local laws, especially those concerning smoking, use and distribution of alcohol and other controlled substances, and physical interaction with others. If it's illegal outside of the hotel/convention, then it's illegal inside of the hotel/convention.

Respect the city. Detroit is a large metropolitan city, and like all major cities it has its good and its bad. Go out and enjoy the city, it has much to offer, but also be aware of your surroundings. The people of Detroit are very proud of their city and are welcoming to visitors.

Respect yourself. Be sure to get something to eat, get some sleep, and try not to over indulge. Be sure to try new things, meet new people and think new thoughts.

PLEASE enjoy the convention, be safe, treat each other nicely,

...continued, over

and let's all work together to make it the best it can be.

See the souvenir book for the full Code of Conduct. The singular rule that supersedes all others is, "Any action or behavior that causes significant interference with convention operations, excessive discomfort to other attendees, or adversely affects Detcon1's relationship with its guests, its venue, or the public is strictly forbidden and may result in revocation of membership privileges."

Please report any incidents of harassment or Code of Conduct violation to Convention Operations immediately, either by going to Ops or calling (651) 560-0338.

Getting Around

The Renaissance Center is an architectural marvel, but can be a little tricky to navigate. Please see the maps on page 28–29 for a visual overview of the space.

Navigating To Detcon1 Function Spaces

We are using the 3rd and 5th floors of the Marriott for programming, and the 1st floor of the Renaissance Center. Within the Marriott you can move between levels using the main elevator bank or the side escalators. All 12 elevators go to the function space floors, but sleeping room access is divided between a high bank and a low bank. Use the high bank to access the Consuite and Party floors. If you are moving between 3 and 5, we recommend using the escalators whenever possible to reserve the elevators for those who cannot.
